SUMMARY

With over 6 years of experience as an Architectural Designer, I specialize in commercial projects with a strong emphasis on sustainable design. I've successfully designed over 20 commercial spaces, incorporating the latest trends and green building practices. My expertise in 3D modeling allows me to bring designs to life, ensuring client satisfaction.

EXPERIENCE

Architectural Designer 2018 - 2022
Urban Designs Inc. San Francisco, CA

Focused on designing commercial spaces with an emphasis on sustainability and functionality.

- Led the design of a 50,000 sq ft office space, incorporating open layouts and collaborative spaces.
- Collaborated with engineers and contractors to ensure designs were feasible and within budget.
- Utilized 3D modeling to provide clients with virtual walkthroughs of proposed designs, enhancing client satisfaction.
- Incorporated sustainable materials and energy-efficient systems in 10+ projects, promoting green building practices.

Junior Architect 2016 - 2018
DesignScape Architects San Francisco, CA

Assisted senior architects in the design and planning of commercial and residential projects.

- Participated in client meetings to understand requirements and provide design inputs.
- Created detailed architectural drawings and plans using AutoCAD.
- Assisted in the selection of materials and finishes, ensuring aesthetic and functional coherence.
- Collaborated with the construction team to oversee the implementation of design on-site.

EDUCATION

Master's in Architecture 2014 - 2016
University of California, Berkeley Berkeley, CA

Bachelor's in Architecture 2010 - 2014
San Francisco State University San Francisco, CA
